

Electric vehicle fleets are growing

Bosch family of EV Chargers for consumer household and commercial use

Low maintenance / High quality Bosch EV charging stations

- ▶ Flexible installation options to fit any budget – indoor, outdoor, plug-in or hardwired
- ▶ No expensive network subscription required
- ▶ Installation can be done by any local certified electrician
- ▶ Maintenance-free charging stations protected by cover-to-cover 3-year warranty
- ▶ Bollards are manufactured by a minority-owned business in Detroit to Bosch specifications
- ▶ Bollards constructed of 1/4" thick galvanized steel to protect against car bumpers and vandalism

Enhance the customer relationship with complimentary charging

A Bosch survey of EV owners indicated over 88% of customers are more likely to visit a shop with EV charging and over 55% expect the shop to charge their vehicle

- ▶ Bosch charging stations can add value and revenue to your business
- ▶ Increase customer satisfaction with EV charging after service, returning vehicles with more range
- ▶ Strengthen customer relationships with a charging program to surprise and delight EV owners
- ▶ Built to exceed NEMA 4X standards, weatherproof charging stations will withstand rain, sleet, snow, ice and heat, all while delivering a reliable, safe and fast charge
- ▶ Plan for EV growth – rapid increase in EV vehicles on the road expected 2022 to 2025
- ▶ Easy integration of optional 3rd party payment systems and sub meters to estimate utilization and charger use rates
- ▶ Selected by multiple OEMs as their preferred charging station for thousands of EVs

EV300 Level 2 Charging Station

- ▶ Easy to install and use
- ▶ Industry standard NEMA 14-50 plug Included
- ▶ NEMA 3R-rated enclosure for indoor or outdoor installation (outdoor installation requires in-use cover over receptacle)
- ▶ Compact design ideal for areas with limited space (indoor and outdoor)
- ▶ Includes tamper resistant mounting bracket
- ▶ Easy to manage 16' cable
- ▶ 240V, 32A capacity for faster vehicle charging
- ▶ Up to 4 times faster than a standard wall outlet
- ▶ SAE J1772 charging connector is compatible with all EVs in North America

EV800 Series Level 2 Charging Stations

- ▶ NEMA 4X-rated enclosure is weatherproof for safe charging in any weather or location
- ▶ Adjustable charging output allows for installation on circuits as small as 15 Amps, up to 40 Amps
- ▶ SAE J1772 charging connector is compatible with all EVs in North America
- ▶ Hardwire installation with wall-mount or pedestal options for commercial applications
- ▶ Movable, plug-in installation option allows charging when you need it, leaving an c charging

EV400 Series Level 2 Charging Station

- ▶ 25' cable is the longest available for more versatility and installation locations
- ▶ NEMA 3R-rated enclosure for indoor or outdoor installation (Outdoor installation requires in-use cover over receptacle)
- ▶ NEMA 6-50P plug
- ▶ SAE J1772 charging connector is compatible with all EVs in North America
- ▶ Movable, plug-in installation allows charging when you need it. Unplug the EV400 to use the outlet for other 240V appliances when not charging
- ▶ Safely charges in all weather conditions - rain, snow, sleet, ice and extreme heat or cold
- ▶ Bracketless mounting for fast and easy installation
- ▶ Clear, bright LEDs indicate charging and power status, stop and reset functions
- ▶ Industry leading 4 year warranty

EV3000 DC Fast Charger

- ▶ Charge up to 4 times faster than Level 2 AC charging stations
- ▶ Can charge new vehicles that operate at higher voltages
- ▶ SAE J1772 CCS combo connector. Standard on most battery electric vehicles in North America
- ▶ Wall mountable
- ▶ High resolution LCD display
- ▶ Improved mounting for ease of installation
- ▶ Plug in and charge – no complicated configurations, user registrations, or ongoing fees
